DETAILED ACTION

Applicant's Election/Amendment of Group I without traverse in Paper 5, filed 1/9/02 has been acknowledged.

Claims 61-93 have been canceled.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 19-37, drawn to an integrated circuit, classified in class 257, subclass 758.
- II. Claims 1-18, drawn to a contact, classified in class 174, subclass 255.
- III. Claims 37-60, drawn to memory cell, classified in class 365, subclass 104

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as being an component for an electrical connection . See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
